

## Hello everyone,

We exist to educate the next generation of orthodontists. Yes, we are heavily involved in research and scholarship, but we exist to educate future orthodontists with a special emphasis on their clinical education. In this newsletter it is my privilege to highlight an especially important aspect of their clinical education, preparation for and certification by the American Board of Orthodontics. Since 2009 the University of Iowa Department of Orthodontics has emphasized preparing our doctors to successfully complete the ABO Initial Ceritification Examination (ICE). Using records made from patients they treated during their residency, I am delighted to report that 100% of newly graduated Iowa doctors who accepted the challenge to participate in ICE successfully passed ICE. Further, 87% of our residents (26 out of 30 residents) elected to participate (I will never give up encouraging the last four to do the same). A heartfelt thanks to Drs. Steve Marshall and Clay Parks for spearheading this effort. You are the best ! You have put Iowa at the top. I am so thrilled by this phenomenal effort that I wish to personally thank those residents who have completed ICE and have listed them on the next page of the newsletter along with all of our other alumni who have passed their boards. A job well done, everyone !

## from The DIPLOMATE Volume 39 / Number 2 University of Iowa Wins The 2015 Resident Case Display Program at the AAO Annual Session

Drs. Kyungsup Shin, Patrick Brady, Justin Hughes, Christopher Wermerson, David Jones (clinical assistant professor), Jed Arbon, Terry Schmitt, Christopher Hartman, Taylor Varner. Pictured separately Jessica Fuller (top right) and Julie Wees (bottom right). Patient was treated by Dr. Tyler Prestwich (and also Dr. Laura Bonner, Dr. David Jones attending orthodontist).

Out of over 180 resident cases presented at the AAO Annual Session in San Francisco by all orthodontic programs from across North America, Iowa was selected as having the top case presented. Last year, we came in second place. Iowa is on a roll !!

## ajumnj <u>News</u>

**Mark Yanosky** (Class of 2001) continues to enjoy his private practice in Birmingham, Alabama along with his part time teaching activities in the orthodontic department at the University of Alabama. Pictured are his kids- Jackson (13), John Michael (10) and Margaret (6). When not working, they enjoy their time at the beach and playing Taylor(17) is to my immediate left then Traci and Blake (14). According to Traci's Fitbit, we walked 8.9 miles, had over 20,000 steps, and burned a little over 2300 calories. Nonetheless, we had a "magical" day. **Dr. Mike Freeseman** 

It hardly seems like it's been 20 years ago since I graduated from the U of I Orthodontic program and moved my wife and three kids to Sioux City, IA. Jacque and I will be celebrating 34 years of wedded bliss this August. ("Bliss" is my word, not hers. She may have chosen a different noun!). Our three kids have grown up a little since then.

Jeremy (JJ) will be graduating from UNC Orthodontic program next spring and moving back home to join Rick Wagner, Tim Kuntz, and myself in our practice...I've got some high angle open bites that I've been saving for him.

Jessica is a dentist in Rochester, Minn. and is thinking about pursuing wire bending as well.

Twin sister, Jenna, is an account rep. for Union Pacific RR out of Ankeny, IA and blessed us with our first grandchild this summer (Juliana Joi Matthey). Jeremy has dubbed Jacque and I "Gigi" and "G-Diddy". I hope my title doesn't stick!

Our family fondly looks back on our time in Iowa City. I am forever grateful to the Iowa Orthodontic program, the staff, and my classmates for an enjoyable and life changing experience.

If you're ever in the Sioux City area, please come see us,

Jim (Grabouski), Jacque, JJ, Jenna, Jessica....Juliana

## (Alumni news continued)

Dr. Matthew Croco and family

Croco, Caspersen, Sloss, McDaniel, Edwards

Here are pictures of me fishing on the Henry's Fork. Fly Fishing is my favorite pastime. In light of the recent dentist shooting a lion I feel it is important to let others know, in full disclosure, that these fish were released unharmed! LOL **Dr. Brad Edgren** 

Dr. Garland Hershey, center rear, and family at the beach

Tim, Jackie, Courtney, Sophia & family pet Holli
